| a) surgeon | b) a tree | c) proud | d) ranger |
| 1._ | 2._ | 3._ | 4._ |

X. Przeczytaj tekst i zaznacz czy zdanie jest prawdziwe – T czy fałszywe – F.**“Stonehenge”**

Stonehenge is an ancient monument near Amesbury in England. It is thousands of years old. Stonehenge is a circle of stones, called blue stones. The huge stones came from far away in Wales and they were taken to Amesbury by boat, then carried to the place they are now. Each of the stones weighs a lot more than a big lorry! First they put up two stones, then put a stone across the top.

On the longest day of the year, 21st June, the rising sun comes up behind one of the main stones, called the Heel Stone, and looks like it is sitting on top of it.

No one really knows what Stonehenge was used for. Some say it was for farmers to tell when the seasons changed, others say it was a kind of temple. Whatever it was used for, it is worth visiting today to stand by the huge stones and feel the magic between the man and nature.
